### Solid Return to British GT for Jamie

Jamie Stanley enjoyed a solid return to the British GT championship at the blue ribbed Silverstone round.

Joining regular team mate Paul McNeilly in the Fox motorsport owned Ferrari F430 GT3 run by FFCorse the pair were driving the oldest GT3 in the field and ran in the GT3B class.

It didn't stop the team running strongly in the race running as high as ninth place overall at one point and running strongly inside the top twenty for the majority of the race before slipping back to twenty second in the closing stages of the race.

"it was nice to be back in the British GT paddock and show what we could do with the oldest car in the field " said Jamie Stanley
